

Reeve & McIntyre are back!!!

The team that bought us the bestselling *Pugs of the Frozen North* have got together for a new series of rodent capers.

Looking for BIG adventures, plucky Pedro is rescued by the **ADVENTUREMICE** - a brave, determined team who keep the Mouse Islands safe from harm. The first book in Reeve and McIntyre's series of rodent exploits is a fabulously silly escapade that's perfect for would-be adventurers aged eight and under.
