

WILD BOOK TALKS

Beastly

A New History of Animals and Us

Published April 2023

Hardback £20.00,

Animals have shaped our lives, our land, and our civilisation. As our impact on the world and the animals we share it with increases, there has never been a greater urgency to understand this foundational relationship.

Beastly is the 40,000-year story of animals and humans as it has never been captured before, seen eye-to-eye and claw-to-hand through those humans who have stepped into the myriad worlds of our animal relatives.

We are delighted that **Keggie Carew** will be talking about her book *Beastly: A New History of Animals and Us*.

Keggie Carew is the author of *Dadland*, which won the 2016 COSTA biography award, and *Quicksand Tales*. Before writing, her career was in contemporary art. Keggie lives with her husband Jonathan in Wiltshire where they have a small nature reserve.
