

A WILD BOOK TALK

The Geology of Dartmoor

With Josephine M Collingwood

Join author, photographer and geologist, Josephine Collingwood for a *Wild Book Talk*

Dartmoor has world-class geology; its tors and minerals are studied far and wide as superb examples. If your curiosity is piqued when looking at the tor formations, old mine workings, and odd coloured rocks, then this talk is for you.

Josephine Collingwood is a professional photographer with a background in geophysics and technical editing. Based near Tavistock, she has lived in or around Dartmoor National Park since 1983 and has a profound love of Dartmoor.
