Published Jan 2023, **£14.99** ~~£16.99~~

Marine biologist Hannah Rudd presents an alternative and sustainable future for the management of our seas. As individuals, we can all do our bit through practical steps such as: re-thinking what we eat, limiting our use of plastic, and being careful how we spend our money. By becoming marine conservationists in our everyday lives, we can help to create a healthier future for our oceans.
